R Notebook

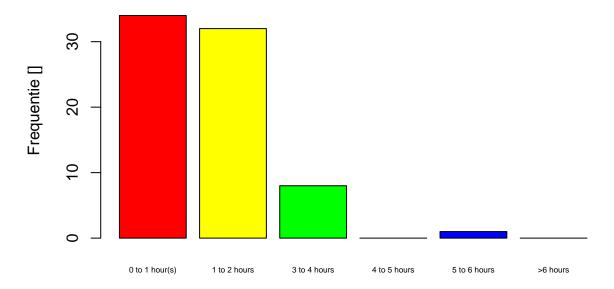

Hoeveel wordt sociale media gebruikt?

Om de gegevens weet te geven voor deze vraag gebruiken we een staaf diagram met de vijf grote sociale media platformen plus een sectie met de overige platformen waar de hoogte weergeeft hoeveel tijd er gemiddeld voor het sociale platform wordt gebruikt.

```
for (platvorm in names(time_list)){
   print("")
   barplot(table(time_list[[platvorm]]),
        main = paste("The time people spend on", platvorm ,"on a daily basis"),
        col = rainbow(6),
        cex.names = .5,
        ylim = c(0, max(table(time_list[[platvorm]])) + 5),
        xlab = "Time Spend using the social platform",
        ylab = "Frequentie []"
        )
    rm(platvorm)
}
```
